## And New Projects for 2017

Endowment  
MGIMO University

*“The MGIMO confidence in its future is based on the support of the Board of Trustees members that helped the University to shape the Endowment Fund. This tool is a “safety bag” which is especially important under current economic circumstances.”*

**Sergei Lavrov**

*“Endowment financial assets have been aimed at the development of the University. Certainly, there are some extra-budgetary resources in MGIMO, but the spending is also enormous. To begin with, we have a great number of professors. We spend much money on students’ internships, lecturers’ academic assignments, participation in international conferences. The state budget does not allocate funds for such goals. If, for example, students learn a rare Albanian language, how won’t they do a language course in Albania? Or if they learn a very difficult Chinese language, and there is an opportunity to send them up to China for a year? The subsidies for every student don’t provide these expenditures. However, we cannot save money on the level of language training.”*

**Anatoly Torkunov**

*“I consider the activity of MGIMO Endowment, where I participate together with other alumni, extremely important. Endowment is a foundation of the dynamic development of academic programs, financing scientific studies and strengthening material and technical basis of the University. Such practice was firstly used in Russia in MGIMO and it became an example for other universities.”*

**Alisher Usmanov**

*“...Anatoly Vasilevich asked us to set an example. Three of us gave 125 million rubles each. I gave 50 million rubles additionally to support the veterans of the Ministry of Foreign Affairs. Since then, every year we increased Endowment capital threefold giving a million dollars every time. This was a real quantum leap in our support of the University as we laid its financial foundation. By managing it efficiently, MGIMO is able to plan its development on its own...”*

**Patokh Chodiev**

*“Charity doesn’t depend on the existence or lack of spare money. This is a demand of the soul – to share what you have. I help those that I believe can become strong, independent and start to help himself or herself. I try to reproduce this capability – to help.”*

**Vladimir Potanin**

# Endowment

MGIMO University

*The MGIMO Endowment which celebrates its 10th anniversary in 2017 has been growing and developing. We have succeeded to combine three important dimensions of our work: fundraising, investment, and project activity. The Endowment is a simple and transparent tool that proved its efficiency. Our openness provides the trust of alumni and companies supporting the Fund every year. In 2016 we attracted a record number of new partners. We achieved the “height” of 1.5 billion rubles!*

*We pay much attention for implementing particular projects, cooperate with their authors and grantees to internationalize MGIMO and develop international competences and studies.*

*The Endowment aims at attracting the attention of the business community to cooperation with the universities. To reach this goal the Association of university endowments (UnivEn) was established at the initiative of the MGIMO Endowment.*

*In 2017 we continue our partnership with alumni and companies, grantees and academic community.*

*The share of Endowment will for the first time go beyond 10% of MGIMO budget!*

**Marina Petrova,**  
*Head of the Endowment Fund*

*MGIMO is famous for its consolidated alumni community throughout the world.*

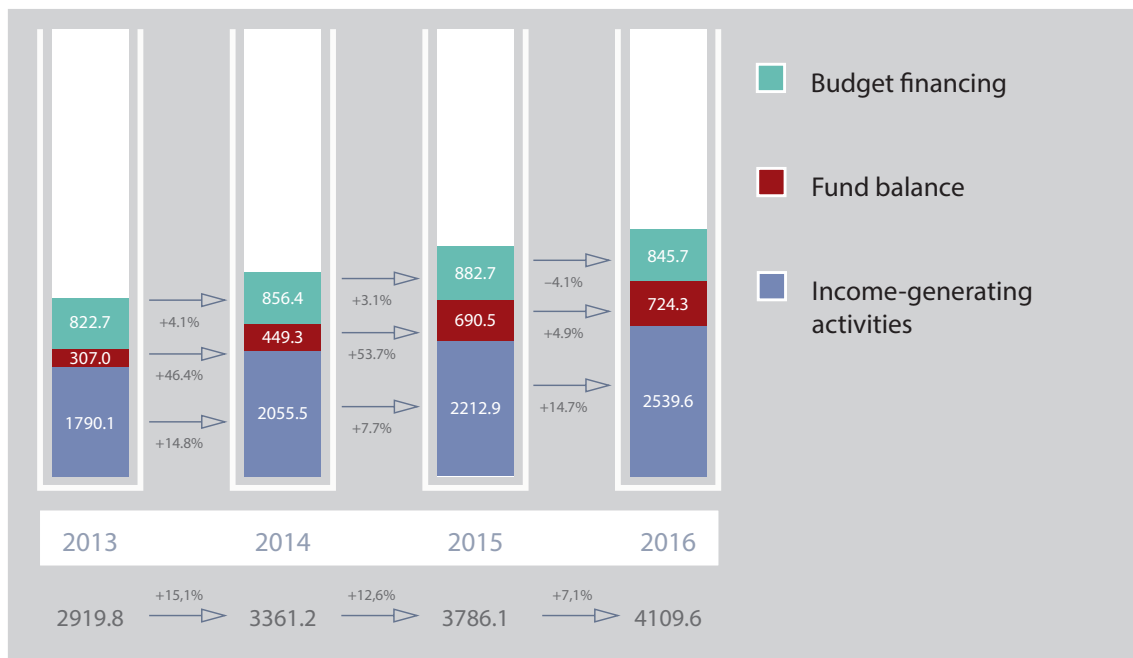

*2016 marked the 25th anniversary of the MGIMO Alumni Association, during this time it has become a unique mechanism of contacts. Today more than 10 000 people are the Association members, more than 25,000 people are somehow involved in its activity and related to the University, more than 20 alumni clubs are open abroad.*

*We succeeded to create a bright palette of events – in expert sphere, art and sports. The Association turned into a secure foothold of MGIMO. We work on maintaining the traditions established by our predecessors – collect memoirs, develop the University History Museum, share the experience of elder MGIMO generations to the young one.*

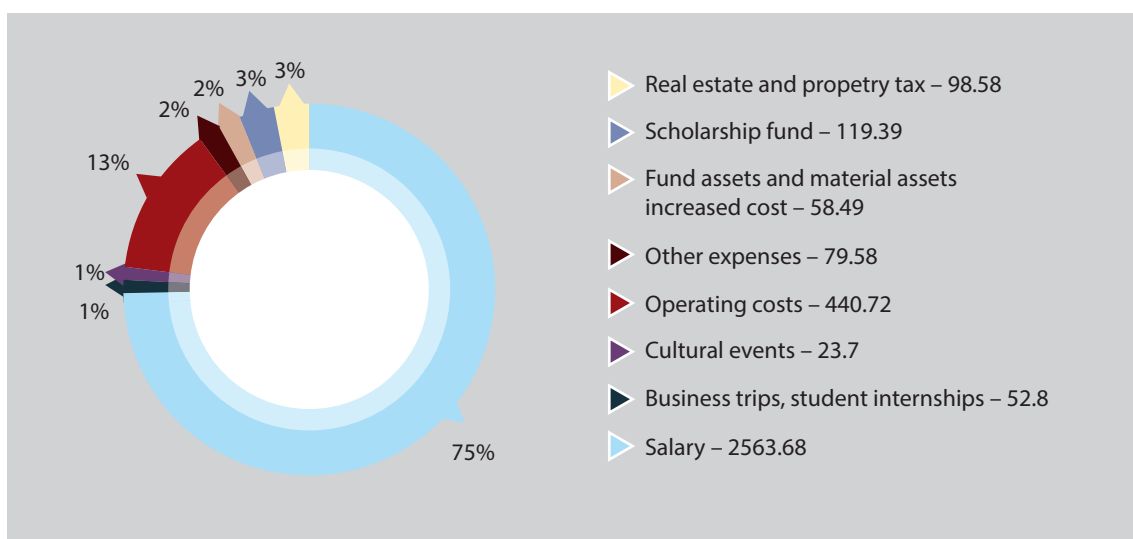

*For a new development period the Association sets ambitious goals. It is planned to increase the number of alumni clubs abroad and new events for MGIMO students and alumni. These goals will be achieved with the support of our alumni.*

**Igor Arsenyev,**  
*Head of the Alumni Association*

Graph 1. Fundraising VS return on investment in total volume of the Endowment, mln rubles (after the transfer to the University budget)

In 2016 the Endowment reached 1.5 billion rubles.

The Endowment capital increased due to investment and fundraising.

Profitability from the funds managed by 'Gazprombank – Asset Management' in 2016 is 7.6% (return on investment in ruble instruments is 13.4%, return on investment in currency instruments (dollar deposits and eurobonds) is 6.4%, currency revaluation because of the stronger ruble is 16.8%), by 'Alfa-Capital' Asset Management Company is 11.2%. The third endowment capital formed in July, 2016 was placed under management of 'VTB Capital Asset Management'.

In early 2016 a portfolio manager formed a position in the most preferable eurobonds. Within the declining key rate of the Bank of Russia and the situation on global markets in 2016 the medium-term bonds of reliable emitters were bought to the portfolio (an average term was 1.3 years). By the end of the year an average maturity term reached 1.7 years. The manager took part in the IPO's of corporate bonds.

By the end of 2016 a share of subfederal bonds was cut and the dividends from Eurobonds were received (Graph 2).

For 2017 we plan to invest in corporate bonds with an average BB credit rating and to participate in the most beneficial IPO's (up to 80% of the portfolio) and the maintaining of foreign exchange instruments.

64.6 mln rubles transferred from the Endowment to the MGIMO budget were used for payments for scientific and publishing activity of the professors, support of MGIMO veterans, modernization of education quality audit system, automatization and implementation of budgeting and management accounting, and invitation of foreign professors.

Major contributions in 2016 were made by the Deputy Chairman of the MGIMO Board of Trustees and an USM Holdings founder Alisher Usmanov and 'Transneft' (CEO and the President, the member of the MGIMO Supervisory Board Nikolai Tokarev). The particular projects and events were supported by 'Rostech' (Director General, the member of MGIMO Supervisory Board and the Board of Trustees Sergei Chemezov), 'Sad-Gygant' and Belan Khamchiev, Bank 'Rossiysky Capital' (CEO, the member of the MGIMO Board of Trustees Mikhail Kuzovlev), MGIMO trustees Georgiy Krasnyansky, Frederik Paulsen, Sergei Katziev, Vladimir Gruzdev, Andrei Epifanov, Robert Paranyants, Dmitri Rakovtschik, Igor Potapenko.

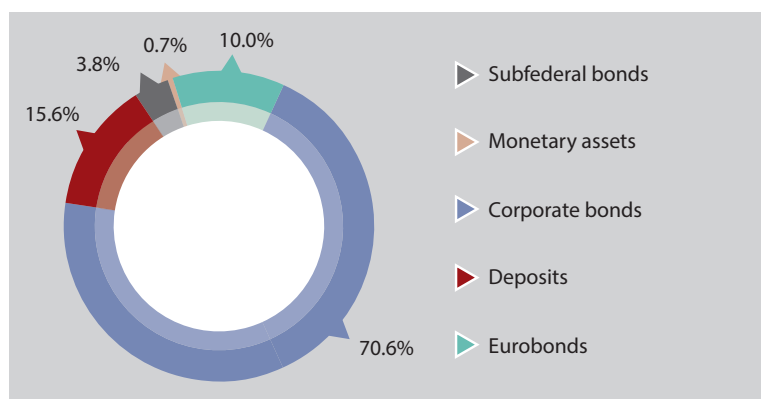

Among the partners are the companies 'Metallinvest', UGMK, Russian Railways, Insurance company 'MAKS', O1 Properties, Samsung, Azbuka Vkusa, "Premiera 35", 'Promresourse', Rietumu Banka, Group of companies 'Energy', S.A. Ricci, Group of companies 'RUDO', the "Clever" cooking studio, Vladimir Potanin Foundation, MGIMO alumni Natalia Perelygina, Dmitry Mintz, Anton Ostrovsky, Sergei Guskov, Vladimir Sadovin, Andrei Rachmahunov, Ruslan Aliev, Maxim Katzev, Konstantin Trapaidze, Georgiy Tufar, Valentina Davydova and the alumni of MGIMO School of Business and International Competencies Khanbala Khanbalaev and Igor Pushkaryov.

The third Endowment capital was formed due to VTB Bank (the first Deputy CEO, the member of MGIMO Board of Trustees Vasily Titov), the Board member, the Director for Strategy&Investment of 'Inter RAO' Ilnar Mirsiyapov, and a student's father Victor Podchufarov.

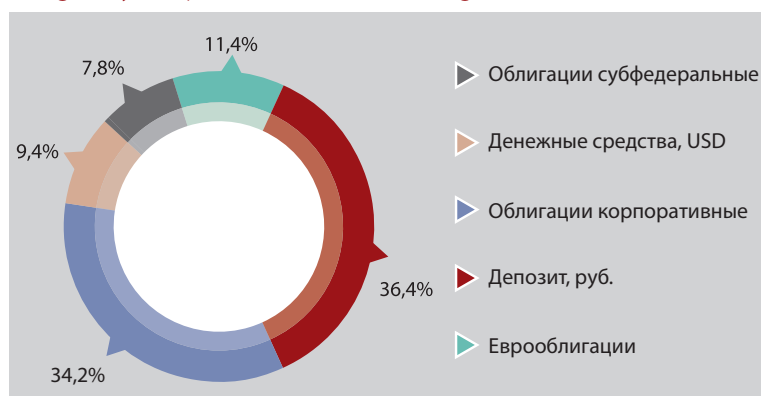

The return on investment together with the sponsors' support has reached 10% of the University budget.

The financial audit of the MGIMO Endowment in 2016 was done by KPMG.
